

XXX – Physical Security – Vision, Values and Scope

XXX/Physical Security – Vision Statement

The Vision of physical security is to provide a safe and secure environment through assessment and risk mitigation to maintain the health and quality of life of our human community, property and information COMPANY-WIDE.

XXX/Physical Security-Value Proposition:

Using current regulatory resources, physical security best practices and guidelines that are fully vetted through COMPANY-WIDE collaboration, we will provide a broad range of physical security services.

XXX/Physical Security – Scope

Support COMPANY-WIDE initiatives

Threat management:

- Assess Risk COMPANY-WIDE
- Determine vulnerabilities based on that risk
- Devise a mitigation strategy that may include implementations or risk acceptance strategies
- Help prevent or reduce the opportunity for work place violence events

Physical Security Initiatives:

- Provide greater Accountability by choosing the right physical security solutions consistently, and building relationship interactions to fulfill or further the mission and values of COMPANY X.

Physical Security Vendor Optimization:

- Create a Physical Security RFP “Vendor Requirements Guide” to be followed COMPANY-WIDE.
